Indicate the direction of the door swing.

Drawing Your Floor Plan

Use a pencil and the graph paper attached to design your new kitchen.

How To Measure

Tip: Pick a corner to start. Then measure the full length of the wall. Continue around the whole room.

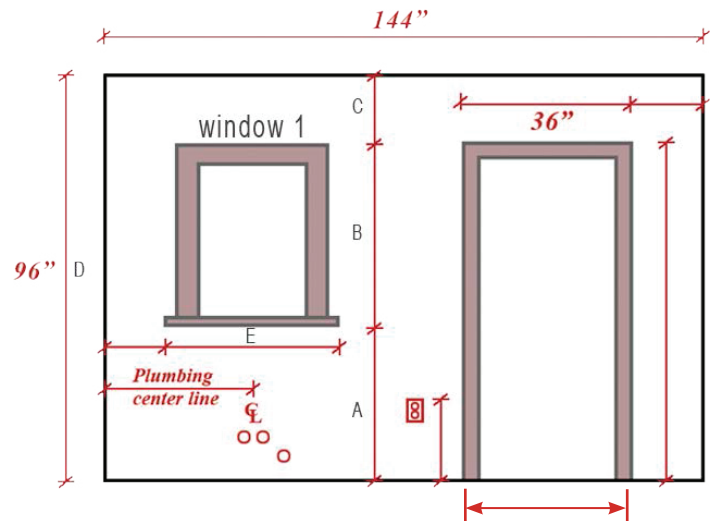

! Be sure to measure from the outside of the trim edge to the far wall.

! Make sure that all your measurements add up to the overall wall measurement.

Mark all your measurements in inches only, so 7'6" should be marked as 90".

Measure all objects on the wall (windows, doors, electrical outlets, gas lines, ventilation duck work, A/C vents).

Measure all the window and door openings from outside trim edge to outside trim edge.

Window Measurements

Name Width Height Distance From Floor

Name	Width	Height	Distance From Floor
